HAY

ROMO COLLECTION

HAY's selection of Romo fabrics offers high-quality textiles in a variety of textures, weaves and colours, all chosen for their unique durability and aesthetics. Primarily composed of material blends of linen, viscose and cotton, the textiles have a lighter expression that makes them particularly suited to warmer climates. The upholstery fabrics can be used to cover a wide range of chairs, stools and sofas in many different domestic and contract environments, ranging from living and dining areas in the home to hotels, restaurants and corporate spaces.

OLAVI BY HAY

Bridging domestic and contract use, Olavi by HAY is an inviting semi-plain with a textured, irregular weave structure and a range of tantalising colours, including classic combinations and high-contrast teasers, all in a strong contemporary palette.
